
DR BOB JANG

Orthopaedic Surgeon

RADIOLOGY REFERRAL FORM

Please arrange imaging at:

IMed: (02) 8282 8100

Lumus: (02) 9747 1599

Synergy: Strathfield (02) 8622 0000

Patient name:

DOB:

SHOULDER Left Right Provisional Diagnosis _____

1. Plain X-ray

- AP of the glenohumeral joint, with Scapula AP (windowed to show medial side of scapula)
 - Patient standing erect
 - Arm hanging relaxed by their side
 - neutral rotation

(need to visualise the resting position of the glenoid joint line and the whole scapula)

FOR CT BIOMET PROTOCOL - PLEASE EMAIL THIS REFERRAL TO - sunny.dutt@zimmerbiomet.com

2. CT Scan of Shoulder / Scapula

Zimmer Biomet Protocol (must be uploaded to Zimmer Biomet PACS)

De Puy Protocol (must be uploaded to DePuy)

Please ensure axial reformats are done as axials in the plane of the scapula (not the plane of the body)

Also perform sagittal and coronal reconstructions, and 3D reconstructions of the scapula with the humeral head subtracted and vice versa.
